

## **EMERGENCY PLAN IN CASE OF A DANGEROUS EVENT OR HEALTH EMERGENCY**

### **Reporting of potential danger**

Anyone who detects the beginning of a fire or detects any other anomalous event that may suggest the imminence of a danger (presence of smoke, fire, spillage, flooding, etc.) is required to activate the emergency numbers shown below, reporting:

- their personal details;
- the location of the dangerous event;
- the characteristics of the danger.

### **Emergency intervention**

The personnel present at the site of the incipient danger, after having reported the situation as indicated above, may attempt an emergency intervention, but only if they are able to do it without prejudice to their own safety and that of others.

For example, in the event of a fire, while waiting for help to arrive, they may try to put out any outbreaks using the available fire extinguishers.

The extinguishing means must be used only after having read the instructions for their use shown on each container.

### **Evacuation Procedures**

If it is necessary to evacuate the area, you must go towards the gates of the area itself.

During the evacuation it is necessary to:

- leave the area without delay, in an orderly and calm manner; do not create alarm or confusion; do not push or shout;
- do not carry bulky or heavy objects (umbrellas, packages, etc.);
- do not go back for any reason;
- do not obstruct entrances and exits;

### **Emergency Room Request**

In case of an accident event or health emergency, users are required to activate the emergency numbers listed below, reporting:

- their personal details;
- the location of the event;
- basic health information (number of people involved, type of health event, apparent severity, etc.)

Following in this way the instructions given by the emergency staff.

### **RECOMMENDATIONS**

- Read the present rules carefully in order to keep the contents in mind for any eventuality;
- Identify and memorize the location of the nearest portable fire extinguishers;
- Identify the location of the exits from the parking area;
- Read carefully and memorize the instructions for using the fire extinguishers, which are indicated on each container.
